MEMORANDUM FOR: Director of Central Intelligence

FROM: Director, Office of External Affairs

Senator Denton, Judiciary Committee, has asked CIA to confirm that you are alleged to have said the Soviets have lately spent \$67 million on disinformation in the U.S. and 2-3 hundred million dollars worldwide on disinformation related to El Salvador. We find no record of your having said these things. Can you shed any light on this? FYI - we had a media query very similar to this about three weeks ago.
